Project *WeCan*

Launched in 2011, Project *WeCan* is a **Business-in-Community** initiative providing students who are disadvantaged in learning with opportunities and care to empower them for pursuing higher studies and future careers.

Using an 'adopt a school' model, each school is coupled with a partner in a multi-year collaboration for providing financial and volunteer support. Project *WeCan* also organised a variety of joint-school programmes for all participating schools to facilitate learning and exchange.

In 2023/24, there are over 70 partners in the *WeCan* network, serving over 93,000 students of the 82 schools.

WeCan Partners

Shape Our Future: *WeCan!*

Career Exploration Day

To inspire students to plan for their future, Shape Our Future: *WeCan!* Career Exploration Day was launched in 2015/16 school year, providing students with a comprehensive and one-stop-shop career planning programme to help them understand their own strengths and explore different career options.

Students would first complete a career interest assessment to understand their own personality and career aspirations. Through joining the highlight activity job tasters on the programme day, students can learn about the responsibilities and required skills of different jobs through workplace simulation. Activities such as career interest games and sharing of information about further education and career opportunities are also provided for students to understand various industries and the diverse development opportunities lying ahead of them.

This year marks the 9th edition of Career Exploration Day. A diverse array of career-related activities will be provided for around 7,500 secondary school students from 82 schools. Parents workshops and job tasters for teachers are also arranged to facilitate the schools on their long-term career planning programmes.

The kick-off Ceremony of Career Exploration Day 2023/24 was officiated by the Honourable TANG Ping-keung, GBS, PDSM, JP, Secretary for Security with the support of *WeCan* Partners and various organisations to provide students with a taste of jobs from different industries.

Start Your Career Planning Journey

Career planning is a lifelong process. Reviewing one's career plan would be helpful for achieving personal goals in different stages of life. As a student, you can develop a personal action plan starting from understanding yourself, planning personal development and setting goals, so that you can make education or vocational choices that match your interests, abilities and direction of development. While implementing your action plan, continued self-reflection is necessary for adjusting the pace and resetting the goals.

Reflect and feedback

Adapt to external changes by making assessment and adjustment to the career plan, such as changing education and career path, redefining personal goals, apply different measures, adjustment on action plan, etc.

Make an action plan

Pinpoint the actual measures to be taken – equipping yourself for challenges ahead, making actual education and career decisions

Self-understanding

Assess one's own interests, strengths, personality, knowledge, skills, experience, and mindset

Explore higher studies & career choices

Learn about trends of the job market, emerging industries, qualifications framework and options for advanced study by participating in career talks, visits to different industries, job tasting programmes and career expos

Analyse your options in higher studies & career path

By assessing external factors and opportunities (e.g. family background, socioeconomic changes) and your aspirations, compare the education and vocational choices available

Goal setting

Setting personal goals and career goals for lifelong pursuit

Get Ready for the Workplace

Besides Job Tasters, there are talks, workshops, career interest games and booths for you to learn more about different industries, and acquire the knowledge and information needed for joining the workforce.

Career Interest Game @ Room 207, CBCC

Deepen your understanding of VASK (Value, Attitude, Skill, Knowledge) through games hosted by YWCA.

Academic Pathways and Preparation Workshop @ Room 307, CBCC

Workshop led by school social worker from YWCA, providing guidance on effective strategies for better preparation in further studies.

Discover your Career Interest Types

According to John Holland’s Theory of Career Choice, career interests can be divided into six types, as well as the job natures and working environment – Realistic, Investigative, Artistic, Social, Enterprising and Conventional. If your personality, ability, strengths, knowledge and skills match with your job, you would be able to work more efficiently and more devoted.

After completing the Career Interests Assessment, you may realise that most people fit in two or three career interest types. The same applies to the nature and working environment of most job positions. Therefore, most of us are capable of working in more than one specific industry. Remember not to limit yourself in career choices and personal growth at an early stage.

Realistic

Job Nature

- Prefers more practical tasks instead of engaging in conceptual tasks
- Enjoys operating equipment, tools or machines

Personality Traits

- Follows rules and regulations
- Genuine
- Straightforward
- Perseverant
